01 / PHILOSOPHY --- ESTABLISHED 2026

We design slow garments for people who finish their rooms.

Afetto is a small house. We release one library each year and revisit a single archive volume each season. Every pattern is drafted by hand in a single-room studio in Porto, then sent to four ateliers across Portugal, Italy, England, and Japan. We choose mills the way other houses choose models. We do not chase silhouettes — we resolve them. The result is clothing that arrives quietly, holds its volume, ages without apology, and asks nothing of the wearer beyond use.

"The clothes are designed to live inside rooms not on top of them"

REFERENCE / 03

On Concrete. Cloth. And Step.

The references that hold the studio together — brutalist negative space, the close grain of raw wool, and the small geometry of a single body crossing a wide street.
